SKILLS SUMMARY

Languages:	C, C++, Java, SQL, HTML, CSS, JavaScript
Frameworks & Libraries:	React.js, Node.js, Express.js, Next.js
Databases:	MongoDB, PostgreSQL, MySQL
Developer Tools:	Git & GitHub, Vercel, Postman, VS Code
Core Subjects:	Oops, DBMS, Computer Networks, Operating System, Data Structures & Algorithms
Soft Skills:	Team Collaboration, Problem Solving, Adaptability, Time Management

PROJECTS

Lexora – Online Legal Consultation & Document Generation Platform GitHub Live	May 2026 – June 2026
- Developed a role-based legal consultation platform connecting clients with legal professionals, enabling service discovery, consultation booking, and legal document requests through a unified web application. - Implemented JWT authentication and role-based access control for Clients, Lawyers, and Admins, with protected dashboards and admin verification to secure platform access and user management. - Built RESTful backend modules for services, bookings, document generation, and administration, integrating PostgreSQL for persistent data management and Axios-based API communication with the React frontend. <i>Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, NeonDB, JWT, Axios, Vite</i>	
CharityLoom – Online Donation & NGO Management Platform GitHub	June 2024 – July 2024
- Addressed the need for a centralized platform to manage charitable donations, NGO requests, and interactions between donors and organizations. - Developed donation management, NGO registration and management, user registration, donation requests, enquiries, and administrative approval workflows. - Implemented database-driven CRUD operations and separate user, NGO, and admin workflows to streamline donation and request management. <i>Tech Stack: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL</i>	

TRAINING

Disaster Relief Coordination Platform – Real-Time Disaster Management System Certificate Live	June 2026 – July 2026
- Addressed delayed emergency communication, poor coordination among citizens, volunteers, and relief agencies, and inefficient resource allocation through a centralized web-based platform. - Developed emergency reporting, volunteer assignment, resource management, live interactive mapping, real-time chat, notifications, and role-based access using React.js, Node.js, Express.js, TypeScript, PostgreSQL, Prisma, and Socket.io. - Achieved average API response time under 500 ms, real-time message delivery under 100 ms, and successfully tested the system with 1,000+ simulated connections. <i>Tech Stack: React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Socket.io, JWT, Tailwind CSS</i>	

ACHIEVEMENTS

Secured 3rd Place in the Full Stack Intelligence 1.0 Coding Hackathon for AI/ML and Full Stack Aspirants organized by the School of Computing and Artificial Intelligence, Lovely Professional University Hackathon	May 2026
---	----------

EXTRACURRICULAR ACTIVITIES

Smart India Hackathon (SIH) 2025 — Participated as a team member and contributed to developing a solution for an official problem statement through collaborative problem-solving and technical development	Aug 2025
---	----------

EDUCATION

Lovely Professional University, Punjab	Phagwara, Punjab
Bachelor of Technology (B.Tech) in Computer Science and Engineering — CGPA: 6.89	Aug 2025 – Present
Lovely Professional University, Punjab	Phagwara, Punjab
Diploma in Computer Science Engineering — CGPA: 8.79	Aug 2022 – June 2025
Gyan Deep Public School, Bihar	Buxar, Bihar
Secondary School (Class X) — Percentage: 87	April 2009 – July 2022
